(*) Where available. All plans include unlimited access.

ATCJET.net High Speed Internet is available in Alma, Arapahoe, Atlanta, Bartley, Beaver City, Bertrand, Big Springs, Brule, Cambridge, Danbury, Edison, Elwood, Gothenburg, Hendley, Holbrook, Holdrege, Huntley, Indianola, Johnson's Lake, Lake Maloney, Lebanon, Lexington, Loomis, Maywood, North Platte, Ogallala, Orleans, Overton, Oxford, Smithfield and Wilsonville! We currently offer Broadband in three formats—DSL, Cable TV and Fixed Wireless.

You may increase your upload speed by purchasing bandwidth in increments of 128k for \$5.00 each. (depending on availability) This is generally geared toward gamers, VPN customers, or those that use audio/video conferencing. These rates are for high speed access only and do not include setting up the customer's computer network. A \$40 Network Interface Adapter may be purchased for computers that are not network ready. ATC Communications will be happy to recommend independent contractors for installation of LAN networking equipment.

There is no Installation fee for Broadband if you sign a 2 year service contract. Broadband wireless installs without the 2 year contract is \$199.00. There is a minimal waiting period for new installations. So, now would be a great time for you to call and schedule a broadband install. The speed that Broadband Internet offers is truly amazing.

**DON'T BE
DIGNORANT !**

With spring around the corner, lots of home construction projects are getting underway. Anything from putting in underground sprinkler systems or putting up new fences to building garages and home additions. Don't forget to call before you dig in order to locate any underground utilities. You **must** call the Diggers Hotline at least two **working** days before you dig and they will contact the utility companies in your area to perform the line locates.

Diggers Hotline

Nebraska

STORMY WEATHER

As spring starts to make its presence felt, severe weather also tends to appear on the scene. Here are a few suggestions on things to check if you should lose your telephone service after a storm. Power outages caused by lightning seem to be the main problem, causing cordless phones, answering machines and modems to malfunction. If you experience outages after a storm, try unplugging these one by one from both the phone jack and the power source, and checking after each one to see if power is restored. Satellite receivers with pay per view modems can also lock up a phone line after an outage. These are simple things to check before you call in. If you still experience an outage after checking **all** these devices, please call us at 611 to report the trouble.

EASTER— BUNNIES & COLORED EGGS?

Easter received its name from the Anglo-Saxon goddess Eastre.

The egg is the symbol of Eastre (along with the hare) and means "rebirth" in many, many cultures around the world, including Egyptian and Roman.

Easter is a movable holiday and occurs on the first Sunday after the first full moon that happens on or after the Spring Equinox which is March 21.

The look of the Easter basket was inspired by bird's nests.

The official term for painting Easter eggs is Pysanka.

The first chocolate Easter eggs were made in Europe by the Germans, around the time of the Civil War, which is when American's really began celebrating Easter in full force.

There are approximately 90 million chocolate bunnies made each year for Easter.

76% of people prefer to eat what part of their chocolate bunnies FIRST? The ears of course!

HAPPY EASTER!
