CHRISTMAS TREE TRIVIA!

Christmas trees are baled to protect the branches from damage during shipping.

Christmas trees take an average of 7-10 years to mature.

Christmas trees remove dust and pollen from the air.

In the first week, a tree in your home will consume as much as a quart of water per day.

Recycled trees have been used to make sand and soil erosion barriers and have been placed in ponds for fish shelters.

Using small candles to light a Christmas tree dates back to the middle of the 17th century.

A Christmas tree decoration of tinsel was banned by the government because it contained lead, now it's made of plastic.

TRAVEL WEATHER INFORMATION

With December arriving in Nebraska, winter driving can't be far behind. With winter weather comes unpredictable travel conditions. Now you can access weather reports and road conditions around the clock by dialing 511 from any phone. Callers can request route specific information for interstates and highways throughout the state. There is no charge to callers. This program is managed by the Nebraska State Patrol and Department of Roads. Stay safe and call ahead this winter.

Holiday Internet Shopping Tips

If you want to avoid the long lines, shopping crowds, and winter weather, give Internet shopping a try. Here are some tips when shopping via the web.

- 1. Order early! Merchants are required to ship within 30 days of receiving an order unless they advertise a longer time.*
- 2. Know how much you'll be charged for shipping and handling and ask about return policies.*
- 3. Use secure payment methods such as Paypal.*
- 4. Deal with familiar companies when Internet shopping.*
- 5. Never give out your credit card number to someone calling you or in an email.*
- 6. Shop around for best prices or quality.*
- 7. Watch for additional charges.*
- 8. Be careful when buying from private sellers.*
- 9. Always use a secure website for any payment transaction.*
- 10. Check monthly credit card statements for transactions you do not recognize.*
