

JANUARY 2008

**ATC Communications  
Customer Proprietary Network Information Notification**

The FCC has adopted rules to protect your privacy with regard to telecommunications information that is personal to you. This information is called Customer Proprietary Network Information (CPNI) and can be found in your calling and billing records. CPNI includes such things as the type and quantity of the services subscribed to, the equipment and facilities used, and the numbers, dates, times and duration of the calls you place.

From time to time ATC Communications may change its service offerings and make available new features or services that may enhance or improve the services to which you are already subscribed. Allowing us to use the CPNI in your account gives us the ability to give you more personalized service and offer you the products and services that best fit your needs.

If you allow us to use your CPNI, it will be used only by ATC Communications, Applied Communications Technology, Inc, ATCLD and ATCJet.net LLC. The data will not be shared with any other party without your permission.

You have a right under federal law to protect the confidentiality of your account information and we have a responsibility to protect your data.

If you agree to let ATC Communications use your CPNI, **you need to do nothing.**

If you want to restrict use of your CPNI, you must notify us within 30 days of receipt of this notice. You can do that by calling us at 888.565.5422, stopping in at our office or returning the bottom portion of this notice.

Your denial for ATC Communications to use your CPNI will not affect the quality of your service or have any effect on the products and services to which you currently subscribe.

Your decision on the use of CPNI by ATC Communications will remain valid until you change it, which can be done at anytime by calling our business office at 888.565.5422.

I do not consent to the use of my Customer Proprietary Network Information (CPNI).

### TRAVEL WEATHER INFORMATION

#### DIAL 511

Winter weather brings unpredictable travel conditions. With part of the holiday season behind us, you may feel you will not need to be on the road as much. However, you can continue to access weather reports and road conditions around the clock by dialing 511 from any phone. Callers can request route specific information for interstates and highways throughout the state. There is no charge to callers. This program is managed by the Nebraska State Patrol and Department of Roads. Stay safe and call ahead this winter.

**CALL 511 FOR ROAD CONDITIONS**

**THERE'S NO CHARGE TO CALLERS!**

### IRS on the Internet:

[www.irs.gov](http://www.irs.gov) is the address for the Internal Revenue's web site and it has lots of useful information. You can download forms, you can get questions answered and last, but certainly not least, you can e-file your tax return if you qualify. Wondering if you qualify? The information on the site can help you figure that out too. It's certainly worth a few minutes of your time, especially if it can speed up that refund you're getting! To download state tax forms go to the Nebraska Department of Revenue site at:

[www.revenue.state.ne.us/tax/forms.htm](http://www.revenue.state.ne.us/tax/forms.htm).

### Computer Security From Secure IT and ATCJet.net

Were you nice last year and Santa brought you a new computer? Is your old computer running slow or are you in need of updating your Internet Security Software? We have just the thing for you. ATCJet.net has teamed up with Security Coverage to bring our customers a comprehensive Internet Security package and PC Services.

For Internet Security, ATCJet.net now has a package called Secure IT Plus. This package includes all the Internet Security software one needs to protect themselves from attacks. The package comes with Virus and Spyware control, pop-up blocker, and parental control. It includes a management system that keeps all Windows updates for your PC current as well as keeping all the virus definitions up to date. The cost of the package is \$4.95 a month and you can even have it professionally installed for \$10.00. If you have the software professionally installed and were to get a virus or spyware on your machine, the tech support that comes along with the package will remove the threat from your computer at no charge as long as you can still get an internet connection.

If you got a new computer or your virus software on your current machine is out of date, talk to a Tech Support Specialist about Secure IT Plus. For more info call them at 866.222.7873.
