*What are you waiting for?*

SEPTEMBER 2008

***HUSKER FOOTBALL!***

The 2008 Husker Football season in progress and ARAPAHOE CABLE TV will be offering to our customers the opportunity to watch the University of Nebraska football games that are offered via Pay-Per-View. As the games are announced and television coverage is determined we will have an ad on Channel 10 with the dates and times of coverage through Pay-Per-View.

In order to watch a game on Pay-Per-View, it will be necessary to sign up for the service at our business office and pickup the equipment to receive the signal. The cost for each game will be \$29.95 per residence and \$399.95 per commercial building. After each game the equipment will need to be returned by the following Thursday. If equipment is not returned by the following Thursday, all cable TV services will be terminated until equipment is returned and a \$50 late fee is paid.

We will be using our Channel 10 to televise this Pay-Per-View event. During the time of the game the local information will be off the air.

**GO HUSKERS!**

***PEDESTRIAN SAFETY***

***ATC COMMUNICATIONS REMINDS ALL PATRONS THAT SCHOOL IS IN SESSION AND TO BE AWARE OF ALL PEDESTRIANS AT ROAD CROSSINGS.***

**TAKE THE TIME TO CROSS SAFELY.**

**ATTENTION CABLE CUSTOMERS**

As a reminder for our cable television customers in Arapahoe, Elwood and Holbrook, we would like to draw your attention to some special channels and features that you may not have noticed. Channel 10 advertisers now have many options for the background, fonts and colors used for the ad pages. Current and potential advertisers can contact us for details and pricing information. Channel 51 is the channel dedicated to Arapahoe Public School programming and channel 52 is the channel dedicated to Elwood Public School programming. We have a guide channel (playing on both channel 64 and channel 99) that shows the current programming that is playing on each channel. In addition to the programming it shows current weather conditions including current temperature, expected highs and lows, wind speed and direction, and relative humidity. Be sure to check out these channels and see what you might be missing!!

## REVIEWING YOUR PHONE BILL

Have you ever looked over your phone bill and wondered to whom all those phone calls were made? Or maybe you don't have the correct phone book to find a number you need to call. You can find the phone number information you need simply by going online to [numberfinder.com](http://numberfinder.com) or [infospace.com](http://infospace.com). Both sites have national and international phone listings as well as reverse number look up so you can figure out who received all those calls you can't remember making.

Here's a way to return a call without even knowing the phone number! Try ATC's *Last Call Return* service. It allows you to dial a code and have a call automatically returned to the last party who attempted to reach you. For more information on *Last Call Return* contact ATC Communications at 888-565-5422.

## ATC

### ONLINE PAYMENTS!

**YOU MAY VIEW & PAY YOUR BILL ONLINE @ [WWW.ATCJET.NET](http://WWW.ATCJET.NET) HOME PAGE USING ELECTRONIC CHECK, VISA, MASTERCARD, DISCOVER OR AMERICAN EXPRESS CREDIT CARD.**

The automated bill payment system is secured & operated by PayDQ for ATC. All information submitted on this site is secure & will be kept confidential. All communications between you and PayDQ are encrypted using Secure Sockets technology & strong security procedures are maintained & monitored in our processing center. We safeguard and do not share any personal information that may be entered.

## CALL 611 FOR TELEPHONE TROUBLE CALLS:

If you need to report trouble with your phone line you can dial 611 from a **land line** phone in any ATC Communications telephone exchange and be connected with ATC Communications' telephone service department. After hours callers will be asked to leave a message which will be immediately forwarded to the technician on call. If you use a cell phone to report phone trouble, you will need to dial 308-962-9611.

## Windows XP Service Pack 2

Almost all computers sold within the last two years are running Windows XP as their operating system. Because of this, it is now more of a target for viruses and worms than previous versions. To make sure you are up to date and protected, run Windows Update to make sure you have Service Pack 2. This Service Pack has a built-in firewall (or it will let you use your own), a VERY effective popup blocker, and monitoring of antivirus definitions to make sure they're up to date. If you've avoided getting the Service Pack because of it's size, Microsoft has been kind enough to offer a FREE CD with Service Pack 2 on it at [http://www.microsoft.com/windowsxp/downloads/updates/sp2/cdorder/en\\_us/default.mspx](http://www.microsoft.com/windowsxp/downloads/updates/sp2/cdorder/en_us/default.mspx). Effective October 10, 2006 Microsoft will no longer be supporting Windows XP without this update to Microsoft Service Pack 2.
